RE: WasteCon Environmental FRN#0007879497 CDBS Account #869847

Office of the Secretary
FCC
445 12th Street SW
Washington, DC. 20554

Dear Secretary:

There has been recent unauthorized filing activity involving our accounts with the FCC. This is a serious matter which needs immediate attention and I ask for your help.

I am the Executive Director of WasteCon Environmental, Inc. and the primary contact on file since we first applied for an LPFM license in 2001. Currently, a few individuals are attempting to make changes on my behalf without my knowledge in what looks like an attempt to 'assign' KDXI (formally KTIM) to an organization they have created: St. George Community Radio, Inc. As of this date, St. George Community Radio does not exist in the Utah State Division of Corporations database (see attached). From what I have seen on the 'assignment' application, this company is listed as the assignee.

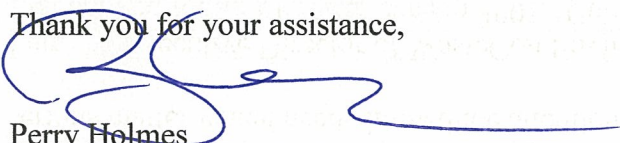

Mr. John Barlow and Morgan Skinner do NOT have authorization to make any changes or filings on our behalf. I would appreciate any assistance you can provide in this matter.

The only filings that are accurate and current are:

Call letter change to KDXI and Silent STA.

The silent STA was done per my request so we can do what is necessary to be compliant during our CP for 100.3FM.

Thank you for your assistance,

Perry Holmes
Executive Director
